

Edison E Plan 4 Bedroom + Family Room

2,034 sq ft

This four bedroom plus family room home has tons of space to gather and connect. You'll find the main bedroom and an ensuite on the upper floor, as well as a den, two more bedrooms and a bathroom down the hall. Plus, there's a fourth private bedroom on the lower floor. With plenty of open space on the main floor, this home centres around the kitchen and a dining area that flows out onto a private deck – great for entertaining in the warmer months. The family room was made for movie nights, while the storage is the perfect place for all your outdoor gear. There's plenty of room on the main level of living for two-car side-by-side parking in this home.
